

FAASTeam presents:

# **Maintaining Aging Aircraft - EAA 292**

FAASafety Team Manager for Airworthiness, Curt Cowley, and FAASafety Team Representative, Robin Reid, will be doing a presentation on Maintaining& Inspecting aging aircraft. A large portion of our GA fleet is older aircraft and they require special considerations when it comes to maintenance. Don't miss this one if you own a classic or vintage aircraft!! REMEMBER-- A Vintage Aircraft was built 30 or more years ago. That means that ANY aircraft built before 1993 is now considered a vintage aircraft by the FAA. Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines.

**Directions:** Independence Airport EAA 292 Building  
4803 Airport Rd  
Independence OR 97351

#### **A message from the National FAASafety Team Manager**
