

Flying Safety with the Electronic Flight Bag App

Safety Seminar 0830-1000 followed by SW WA Pilots Assoc. chapter meeting at FlyIt FBO 1W1

Electronic flight bag apps are incredibly powerful, and learning how to use apps such as ForeFlight takes time and effort. We'll cover some of the basics of how to use ForeFlight to enhance the safety of your flying, including preflight planning and performance calculations; inflight operations such as diversions, obstacle avoidance, traffic, weather, and airspace; learning ForeFlight with a flight simulator; and tips and tricks to make flying safer and easier.

Bring your iPad with ForeFlight and questions or suggestions to share with fellow attendees.

Hosted by Matt Thurber, SW WPA Safety & Training Chairman.
