

## Top Safety Tools - Using Postflight Briefing Tools to Improve Our Flying

Learn how modern postflight briefing tools can help improve your flying skills and hone your performance of various maneuvers from a CFI and a Foreflight team specialist. During this safety seminar, we'll look at postflight briefing tools such as FlySto and ForeFlight's CloudAhoy, and how easily captured flight data can provide useful insights that will make you a better pilot. From stabilized approaches to precisely flown maneuvers, these tools make flying even more fun.

We encourage you to bring your EFB.

Pilot lounge Hangar East of Aeromaintenance FBO. Transient parking is in front of the Pilot lounge
