Portland FSDO FAA Safety Team presents:

Stay Sharp in the Clouds - Instrument Proficiency

With IMC season settling over the Pacific Northwest, Steve will walk through what an Instrument Proficiency Check covers, the currency rules that send pilots looking for one, and how to brush up on approaches, holds, and partial-panel skills before you fly with an instructor. Whether you're current, lapsed, or just want a refresher, come knock the rust off.

There is plenty of parking available in the parking lot.

Our speaker's presentation will begin at 11:00am.

Gate Code, if needed is #1203 (Note: the leading "hashtag (#) is required before typing the digits)

A message from the National FAASTeam Manager
