

Summer Flying Risk Management

Presented by the knowledgeable, experienced instructors at Sun Valley Aviators, this event will include an hour-long classroom presentation followed by the opportunity to experience a high density altitude performance scenario in our Redbird AATD. The presentation will include a discussion of: density altitude and the associated aircraft performance degradation, summer weather patterns, backcountry airports, pilot proficiency, and more. Please bring your aircraft's POH or EFB for performance calculations

We will meet in the Conference Room inside Atlantic Aviation at Friedman Memorial Airport.
