

Using Flight Simulators as a training aid

PC-based simulations, though touted by many in the aviation community as excellent flight training aids, are not being used to their full potential. This course will show how to get the most out of flight simulators with general suggestions, specific advice, and practical tools. Special guest speaker will be Bruce Williams, well-known speaker and accomplished aerobatic pilot from Seattle.

Directions: Travel west on Ahtanum Road to 21st. Turn right (north) towards airport. Yakima Airpark is on the right hand side, inside the security fence. If you are flying into Yakima, ask the tower for progressive instructions to Yakima Airpark (located at the south end of Charlie Taxiway).
