

FAA Safety Team presents:

# Power Lines, Guy Wires, Towers, and Aircraft - A Dangerous Hazard for Pilots!

What is "the wire environment"? Learn how to recognize it, where it occurs, and what you should know before you venture into it! Whether for takeoff, landing, in an emergency descent, or just for fun - low level flight can easily tangle you in wires. This seminar is sponsored by Chapter 79 of the Experimental Aircraft Association and by Avista Corporation, Spokane.

**Directions:** The EAA Clubhouse is the large, old white hangar just west of the Skyway Cafe, off of East Rutter Avenue. The EAA clubhouse is located on the south side of the runway at mid field.

## A message from the National FAASTeam Manager

WINGS – The better way to meet your Flight Review requirement!

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
