

NextGen - Your Questions Answered!

The FAA's Next Generation Air Transportation System (NextGen) initiative is changing the way we fly in the United States, making flying safer and making our airspace more flexible. NextGen procedures are already improving access to GA airports. Other NextGen capabilities will improve situational awareness for pilots.

Directions: From Fort George Wright Drive turn north on either Mitchell Drive or Elliot Drive which are on the east side of the campus. Turn into parking lot P7. Building 24 is across Mitchell Drive to the west. Room 110 is on the main floor.

A message from the National FAASafety Team Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?
