Do you maintain your own aircraft? If so, do you know all the items that you are allowed to perform preventive maintenance on? How about the paperwork responsibilities? Our presenter today is Mike Robertson, an experienced A&P, aircraft builder and FAA Airworthiness Inspector. Mike will provide insight to your responsibilities concerning the maintenance of those 32 items that are authorized by FAR 43, Appendix A. There are no chairs at the facility. If you want to sit down during the presentation please bring your own lawn chairs.

Directions: If you drive to the airport the presentation will be held in the the first hangar on the left from the parking area. If you fly in, the presentation will be in the hanger next to the pilots lounge. From Hwy 2 turn north on Hwy 57. Take the first right turn 1/4 mile after Mac's gas station.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
