

The Art of Getting Dirty, or What is Now Called 'The Advanced Preflight' + WINGS Explained

The advanced preflight concentrates your preflight review of the aircraft's logs and paperwork, plus the physical inspection of the aircraft. Where do you find this paper trail of aircraft history and what do you do with it when you find it? Teams will preflight a marked airplane to see how good their preflight really was. A review of the WINGS Program will keep the other teams busy while one team preflights the aircraft.

Directions: Follow signs to Pasco Airport. Take 20th Ave to Argent. Turn right onto Argent. Go to east side of field. Turn left onto Stearman. Follow Stearman to Bergstrom's on left side of street.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
