

## Spokane Airport ATC Team

Ever been flying at night and the engine goes to "automatic rough"? Ever wonder exactly where you are? Ever wish you had filed a flight plan while you are gliding to a landing in your once powered aircraft? Ever get trapped on top? Air Traffic Controllers can help you out in non-emergency situations too. Come and meet the voices behind the microphones and hear how they can help you on your next flight.

**Directions:** From I-90, East or West. Take exit 276 towards Geiger Road and the State Patrol. Turn left onto S. Geiger Blvd. Take the first right onto W. Pilot Drive.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
