

Operation Raincheck - Day 2

The Air Traffic Control event of the year! During this three-hour event you will see first hand the tower operations and how the approach and tower controllers work your requests into the pattern. Ever had a pilot deviation (we hope not), but if your friend had one, we will discuss how they are handled and what is the route the paper trail follows through the FAA. ATC communications, the pilots nemesis! A case study will lead you through the errors that can happen.

Directions: From I-90 take exit 276 and turn southwest bound on Geiger Blvd. Turn right on W. Electric Road which turns into W. Electric Avenue. Push the button on the gate box and tell them you are there for Operation Raincheck.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
