

Mountain Flying Refresher (Time of safety seminar corrected)

Summer time is here and we all want to fly into the mountain strips and go camping. This seminar is a Mountain Flying Skills Refresher to help you understand the ups & downs of mountain flying, best practices and good techniques to help you stay out of the trees and rocks (which are normally associated with mountains). Short grass or rocky strips, high altitudes, density altitudes, barriers to approaches and takeoffs, wind shear and all of the other "gotchas" that can get you!

Directions: EAA Chapter 1441 President's hangar west side of airport. From intersection of Highway 95 and Schweitzer Cutoff Road (Wal-Mart/Burger King/Conoco):Schweitzer Cutoff Road west (about 1/2 mile) to the "T" at North Boyer (at Fairgrounds corner) South (left) 1 block to Woodland - West (right) on Woodland for 200 feet South (left) into the north service entrance to Omni Park. Hanger is the on the left 3722 Flightline Way

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
