

FAASTeam presents:

2018 Wings Over Republic Fly-In

"How to grow old while being bold" - We pilots are bold simply because we fly. How do we go and explore, see new things, and enjoy our passion while staying safe? CFI Jeff from Latitude Aviation will share some old and new safety concepts that will enable a sensible pilot to maximize their safety while exploring new things in an airplane. Come and hear about go-arounds, committed landings, takeoff risks, and more. While the seminar will be partial to backcountry flying in our beautiful area, pilots of any experience level and even flatland pilots will come away with at least something they can use the very next time they fly.

This safety seminar will also provide information on authorized owner/operator maintenance, and preventative maintenance issues.

Directions: 2018 Wings Over Republic Fly-In
The safety seminar will be located on the airport grounds.
(Ferry County Airport - R49)

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
