

FAASTeam presents:

TFRs / Airspace and ADS-B

Most GA flying occurs during the spring and summer, and so do TFRs. TFRs can pop up in any month, any season and anywhere. Hot summer weather has already resulted in thousands of fires and well over 100 TFRs. In addition to TFRs over wildfires, other disasters may bring a TFR. Pilots can expect TFRs over airshows and sporting events. It's an election year so expect VIP TFRs. Most TFRs are mapped, some are not. Also, the ADS/B-OUT mandate is 8 months away. What airspace will require we have it? Do you know about non-FAA airspace that can be expensive to violate?

Is our self briefing with our favorite App on our tablet, phone, or avionics going to keep us out of trouble? How can we plan and fly smart? Join the webinar and find out.
