

## Real World IFR

Sure you breezed through the check ride or aced that last proficiency check. But you're still hesitant to venture aloft on that "three hundred and one" day. Find out how pilots who fly every day in all kinds of weather do it. ASI's "Real World IFR" safety seminar goes beyond basic IFR training into the world of professional piloting. Even if you don't make a career out of it, you can at least emulate the stellar safety record of the pros.

**Directions:** Held during AOPA Summit in Palm Springs, CA.

### A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
