

Say Again? Radio Communication Done Right

Stymied by radio chatter every time you fly? Does everybody else get “cleared direct” and you don’t? Do ATC communications have you tongue-tied? Learn what NOT to say to controllers and learn their side of the story. This Air Safety Institute seminar goes beyond the A.I.M. and tackles some of the communication “gotchas” both in busy airspace as well as the nontowered environment.

Directions: There is no pre-registration for this seminar.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.
