

After the Crash: Surviving an Aircraft Accident

Of the millions of GA flights every year, only a few end with unplanned off-airport landings. But even though the odds of a crash are slim, the potential consequences are harsh—which is why smart pilots prepare and take basic precautions. That's where our new seminar comes in. From route planning and emergency rations to signal mirrors and sat phones, our presenters take a user-friendly, common sense approach at maximizing your chances of survival and rescue after a crash.

Directions: This seminar is held during the "Accident Wise 2015" event. Presented by the Aero Club of Northern California. Driver must show a valid U.S. driver license, or other proof of identity, at the Moffett Field main gate on Moffett Blvd. to enter.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
