

Real World Weather Seminar

Weather is the single biggest variable in flying. It can turn a long-awaited vacation into a long wait at the FBO, a quick two-hour flight into a tedious four-hour slog, or a stress-free jaunt into a skill-testing ordeal. The variations are infinite, but for pilots it all boils down to two questions: What's really going on out there, and what does it mean for me?

Come join the South Carolina Aviation Safety Council for their annual Safety Fly-In. A FREE lunch will be provided as well as the annual general membership meeting of the SC Aviation Safety Council. Fly in to Eagle Aviation at KCAE for a FREE Shuttle ride to the venue.
