

Thunderstorm Avoidance What you Need to Know

The rise of cockpit weather ranks as one of the great technological advances in GA. Around convective activity, the ability to see the storms provides a major confidence boost—but to be used safely, datalink weather requires both judgment and understanding of the larger ATC and weather context. In this seminar, we'll focus on datalink as just one tool in your weather avoidance kit.

Directions: FREE AOPA Safety Seminar. There is no pre-registration for this seminar.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
