

AOPA Air Safety Institute presents:

Peaks to Pavements Applying Lessons from the Backcountry

Peaks to Pavement: Applying Lessons from the Backcountry

Flying in the backcountry is an exciting and rewarding challenge with little room for error. It's an exacting environment that demands sound decision making, stellar stick and rudder skills, a thorough understanding of the weather, and an intimate knowledge of the airplane. Whether you're a seasoned backcountry flyer or flatlander, you'll enjoy this new seminar, which delves into conditions, challenges, and accidents unique to backcountry flying. Together with your seminar leader you'll examine lessons learned to fly safely in any operating environment.

THERE IS NO PRE-REGISTRATION FOR THIS SEMINAR.

Directions: Aerospace of Museum of California

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
