

AOPA Air Safety Institute presents:

Peaks to Pavements Applying Lessons from the Backcountry

Peaks to Pavement: Applying Lessons from the Backcountry

Flying in the backcountry is an exciting and rewarding challenge with little room for error. It's an exacting environment that demands sound decision making, stellar stick and rudder skills, a thorough understanding of the weather, and an intimate knowledge of the airplane. Whether you're a seasoned backcountry flyer or flatlander, you'll enjoy this new seminar, which delves into conditions, challenges, and accidents unique to backcountry flying. Together with your seminar leader you'll examine lessons learned to fly safely in any operating environment.

THERE IS NO PRE-REGISTRATION FOR THIS SEMINAR.

Directions: Seminar will be held in the Austin E. Knowlton Executive Terminal and Learning Center. Special Thanks to the Ohio State University for hosting this seminar.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
