

## What Went Wrong

Sometimes the cause of an aircraft accident is obvious. Other times, it takes everything from CSI-style forensics to old-fashioned sleuthing to figure out where things went awry. This seminar looks at general aviation accidents through the eyes of the investigator--starting at the scene and working backward to reconnect the shattered links of the accident chain.

**Directions:** This seminar is held during the Mt. Washington Regional Fly-In and Transportation Festival.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>
