

## Contact ASIs Return to Flight Proficiency Plan

Last week we pointed out where the rust is likely to form on your skills, this week we pull out the WD-40 to apply to the problem spots. Join the You Can Fly flight training team as we talk with the safety gurus from ASI to dive into their plan for getting back into the air. Whether it's been days or months since you last flew, this evergreen plan is what you need before cranking the engine after time off.

**Directions:** Please pre-register for this webinar. Click here to register.

### A message from the National FAASafety Team Manager
