

FAASTeam presents:

AOPA Air Safety Institute Presents Flight Deck Tech Episode 2 - Flying With Datalink Weather

Datalink weather has the potential to make your flying safer and more comfortable - but only if you know how to use it properly. Sporty's John Zimmerman joins ASI's John Collins for an in-depth look at ADS-B, SiriusXM, and how to use them in flight. Topics include: weather accident trends, the 5 rules of datalink weather, differences between ADS-B and SiriusXM, popular weather receivers, and real world weather flying scenarios. Registering for this webinar also registers you for Episode 3 on October 20, 2022.

Directions: To register for this webinar please click on this link - <https://attendee.gotowebinar.com/register/787889561326697739>
Once you register you will receive an email with the login information and link to the webinar.

A message from the National FAASafety Team Manager
