

# Mid Air Collision Avoidance (MACA) presentations: Eglin/Hurlburt AFB, Tyndall AFB, Pensacola NAS

Mid Air Collision Avoidance (MACA) Pilot Deviation presentations: This joint MACA presentation will improve pilot awareness of military operations in the area of the North West Florida and SUA (Special Use Air Space). Airspace Managers, will coordinate the presentations among the multiple organizations. An audience Q&A session will be given between each airspace presentation.

**Directions:** On HWY 98 West, turn on to Stahlman Avenue, at the Chevron station. Follow the GREEN "FAA Safety Meeting signs" to the Community Center.

## A message from the National FAASTeam Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
