

Alabama FAASTeam presents:

WINGS and Things

An accident review Safety Seminar 0900-1100, highlighting benefits of recurrent training with FAA "WINGS" program. CFI's volunteering for anyone wishing to complete a flight phase of WINGS in their aircraft. Young Eagles program will run concurrently with a chill brunch provided by local EAA and airport management. Check out all of the renewed positive energy going on at the Headland, AL Airport.

Directions: From Dothan "Ross Clark" Circle, proceed North on US Highway 431 to Alabama Highway 134. Turn right and the classroom is on your left.

A message from the National FAASTeam Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
