

Aging Gracefully: How pilots deal with the medical aspects of aging

This program will cover recognition of cognitive and physical declines and ways to supplement the effects of aging as we continue flying. Dr. Arnold Angelici, FAA Southern Region Flight Surgeon's Office, will chair a Q&A session following to address concerns of area pilots. Lunch will be provided. Limited number of WINGS flight activities will be offered by member CFI's during the afternoon.

Directions: Classroom is located on Hwy 134 approx. one block off US Hwy 431 in Headland, AL. From Dothan, go north on US 431 to Headland. Turn right at the second red light. Classroom building is on the left.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
