

Wings & Things: Ask the Controllers

Our local flying area encompasses some of the most complex and active airspace in the country. It is dominated by a wide variety of military training and test activities. Our safety as GA pilots will be enhanced through an improved understanding of what controllers can and cannot do.

Directions: WREC is located at the intersection of Alabama Highway 134 and U.S. Highway 431 North. From Dothan's Ross Clark Circle, go north on US-431 7.9 miles, turn east (right) on Alabama 134 for 1/4 mile, turn left into parking lot. Look for green "FAA Safety Meeting" signs.

A message from the National FAASafetyTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
