

# Electronic Flight Bags & Avoiding Controlled Flight into Terrain (CFIT)

FAASTeam Rep Chuck Ebbecke will use an Apple iPad to demonstrate and discuss the many capabilities and plethora of information available with today's electronic communications devices. (And, yes, Chuck really does talk like that!) Following a break, Bill Castlen will use a tragic accident to reinforce what you've learned and to offer some techniques to avoid situations that often lead to controlled flight into terrain.

**Directions:** Drive southbound on Highway 231 from Florida Welcome Center 8 miles. Turn left on County Road 162/Jacob Road, then turn right and travel 4.2 miles on Old US Road. Then right on FL-166/Caverns Road. Citizens Lodge will be about 4 miles on the left. Watch for the "FAA Safety Meeting" signs.

## A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
