

FAASTeam presents:

Upset Recovery

This seminar will include a review of stall aerodynamics, with emphasis on the effects of angle-of-attack and g-loading. The maneuvering diagram will be discussed to explore g-loading ramifications. The concept of autorotation will be reviewed, with emphasis on recovery and spin prevention. A part of Moontown's Annual Grass Field Fly-In event.

Directions: This Seminar is a part of Moontown Airport's Annual Grass Fly-In. Seminars will be held in the large hangar just west of the hangar-port rows.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
