

## Knowing What You Control and What You Do Not

The IMC Club is all about mastering the art of instrument flying. At each meeting we consider thought provoking situations and then, in a structured manner, we discuss alternatives and personal experiences.

This month we will discuss some human factors related to fuel/weather ADM, especially the real question of what does the PIC control? Fuel? Weather? Time? Heading? Emotions? Come join us for what should be a lively discussion.

**Directions:** Aero-One Aviation is the first facility NW of the DHN Passenger Terminal

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
