

FAASTeam presents:

IMC Club Meeting - Mastering the Art of Instrument Navigation

EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument rated pilot to attend. Membership in the EAA/IMC Club is encouraged but not required to participate in this meeting. For more information, and, to take part in this event, click the link below and register TODAY!

Directions: At the Huntsville Executive Airport (MDQ), the meeting will be held in the conference room at the Executive Flight Center's FBO facility. If driving, US 431 to Meridianville, east on Meridianville Bottom Road and then north on Bolling Road.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
