

N/A presents:

Huntsville IMC Club Meeting

Topic: Plate or No Plate in northern Indiana
Question of the Month: What is this HI-ILS or LOC RWY 8 approach to Jacksonville (KJAX) (below)? Why does KJAX have this approach? What is the meaning of the dotted line on this approach? (See attached image)

EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real-life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument-rated pilot to attend. Membership in the EAA/IMC Club is encouraged but not required to participate in this meeting. For more information and to take part in this event, click the link below and register TODAY!

Directions: Executive Flight Center's conference room.
