

**N/A presents:**

## **Huntsville IMC Club Meeting**

**Topic:** Can you hear me now?

**Question of the Month:** We all know that for IFR flight, the pitot-static system must have been checked within the preceding 24 months. When we set the altimeter on the ground before departure, what accuracy must be observed? EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real-life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument-rated pilot to attend. Membership in the EAA/IMC Club is encouraged but not required to participate in this meeting. For more information and to take part in this event, click the link below and register TODAY!

**Directions:** Executive Flight Center's conference room.

## Event Details

**Mon, Mar 20, 2023 - 19:00 CDT**

**Executive Flight Center**

358 Bolling Road

Meridianville, AL 35759
