

## BFC Safety Seminar

Clear, confident radio communication is essential for safe and efficient flight, whether you're working with ATC or coordinating with fellow pilots in the pattern. BFC is pleased to host this seminar, which will break down the key differences between towered and non-towered airport operations, including phraseology, communication flow, and situational awareness. We'll cover practical tips to reduce mic fright, avoid common communication errors, and sound like a pro on the radio. Whether you're a student pilot or an experienced aviator looking to sharpen your skills, this session will help you stay radio-ready in every airspace. Join us on October 16th from 1800 to 2000. Food and drinks will be available.

**Drive-in:** Birmingham Flight Center is located at 4255 East Lake Blvd. We currently share a parking lot with Southern Sky Aviation. We are the last door towards the flight line.

**Fly-in:** Birmingham Flight Center is located on the east side of hangar 35 on the Atlantic aviation ramp. We are the door by the parking lot.
