

CFI/DPE Forum

In this presentation we'll discuss the training events that lead to the practical test.

We'll review the evaluation of applicant knowledge, skill, and judgment as we concentrate on preparing our students to be safe and knowledgeable PICs after their checkride. Open discussions will focus on weak areas found during the checkride, new guidance/regulations, the stabilized approach, and the new CFI slow flight task. As the CFI, "be the baseline", teach em' how to really fly!

Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register TODAY!

Our forum will be held in Executive Flight Center's conference room.
