

## BFC Safety Seminar

Runway incursions keep happening, and most of them are preventable. This seminar takes a practical look at how and why incursions occur, from misheard clearances to poor airport awareness and cockpit complacency. We will break down real-world examples, common traps pilots fall into, and simple habits that reduce risk on the ground. Whether you fly towered airports daily or rarely talk to ATC, this session will sharpen your situational awareness and help keep you, your passengers, and everyone else on the airport surface safe.

1800 to 2000 with brief intermission.

Food and drinks available
