

## BFC Safety Seminar

Spring and summer flying can be some of the most rewarding, but also the most unforgiving. The weather moves faster, builds quicker, and leaves less margin for error. Interpreting Spring and Summer Weather is designed to help you make sense of what you are seeing before it becomes a problem.

This 2 hour seminar focuses on turning weather information into real-world decisions. Not just what the reports say, but what they are telling you about what is coming next. You will walk away with a clearer picture of how to spot developing threats early, think ahead of changing conditions, and avoid getting trapped in a situation that started off looking manageable.

If you want to fly more confidently during the busiest weather season of the year, this session will give you the tools to do it.

Drive-in: Million Air Birmingham is located at 4725 65th Pl N. Walk in the lobby and we'll escort you to the meeting room in Hangar 14
