

STALLS, SPINS, and SAFETY

Fun up high but dangerous down low, stalls and spins are responsible for too many aviation accidents. Ms. Cavagnaro will discuss the aerodynamics of stalls and spins, scenarios in which they are encountered inadvertently, and recovery techniques. Most importantly she will offer suggestions for training to avoid them in the first place.

Directions: I-75 to Exit West onto Chastain Road Exit 271. Chastain Road turns into McCollum Parkway. Turn left at Old U.S. 41. Turn Left onto Airport Rd. Preferred Jet will be on the left. Gate G.

A message from the National FAASTeam Manager

The new WINGS–Pilot Proficiency Program is great! Check it out now!
