

2014 AWAM JASC & ATA Codes Seminar

Understanding and knowing how to use aircraft reference materials is critical to aviation technicians. This presentation will cover how aircraft maintenance manuals are structured by reviewing the widely-used numbering scheme that is the industry wide standard for aircraft systems numbers. The Joint Aircraft Systems Code (JASC) table, which is a modification of the Air Transport Association (ATA) specifications will also be presented.

This is a free event sponsored by the Association for Women in Aviation Maintenance (AWAM)

Directions: WAI Conference Exhibit Hall

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
