

Georgia FAAS Team presents:

Starry Night

Non-instrument rated pilots who want to improve their proficiency have an excellent resource through EAA's Visual Meteorological Conditions (VMC) Clubs. The purpose of EAA VMC Clubs is to build proficiency when flying under visual flight rule conditions.

EAA VMC Clubs are extensions to local EAA chapters and offer monthly meetings in which pilots can network and share knowledge and experience. The meetings use real-world scenarios to engage members, and allow a free exchange of information that improves awareness and skills. The intent is to create a community of pilots willing to share information, provide recognition, foster communications, promote safety, and build proficiency.

Directions: FBO can provide directions to the the EAA Chapter Conference Room. Entrance is also listed in Google Maps
Prior to attending a safety seminar, please abide by current CDC, State and Local Health Guidelines.
