

Tales from the Tower - Q and A with ATC 2024

During our annual open discussion with local ATC, we'll discuss airfield operations, hot spots, hazards and risks in the movement area. In the Flight Risk Assessment Tool (PAVE), airport knowledge is addressed in the EnVironment area. The Risk Management Handbook is available for download [here](#)

For those considering a career in aviation, we'll also address ATC careers.

Please review this [Know Before You Go video](#) in preparation for this event. A printable document is also available on the website. Current airport information is available at [AirNav](#)
