

The Stabilized Approach and Landing

Approach and Landing accidents result from those situations where a pilot may have been able to land an aircraft safely, but did not. These type of accidents are one of the primary causes of aviation fatalities. We will analyze actual accidents and offer valuable safety tips. Don't miss this important safety seminar!

Directions: From I-26 take exit 113 onto Hwy 302 toward the Columbia Metro Airport. After .9 miles turn right onto the John N. Hardee Expressway. After .6 miles turn right onto Lexington. After .1 miles turn left onto Kentucky. After .3 miles turn left onto CAP Wing Drive.

A message from the National FAASTeam Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?
