

San Juan FAAS Team presents:

ABC's of SMS

The “ABC's of SMS” is a one-day (8 hour) course that introduces the attendee to Safety Management Systems. The course is divided into three parts, each part addressing various aspects of SMS. Part 1 is a general introduction to SMS—including Policy, Safety Risk Management, Safety Assurance, and Safety Promotion; collectively known as the Four Pillars of Safety. Part 2 addresses "breakout topics" pertaining to the GAP Analysis, SMS Manual, Safety Culture, and Reporting Systems. Part 3 covers SMS in the real world and some of the challenges that may be encountered while implementing a fully functional SMS. The class finishes with an open forum and a question and answer session to allow a high amount of interactivity between the course facilitator and the attendees.

Directions: Course will be conducted in the training room at the Airport Rescue and Fire Fighting Facility.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants.
