

Mastering the Art of Instrument Navigation

IMC Club, through its nationwide chapters, provides organized “hangar flying” focused on building proficiency in instrument flying. Believing that safety and proficiency are developed through education and experience, monthly meetings use real world scenarios to engage members and allow them to share and build their experience. You do not have to be instrument rated to attend!

Directions: When coming into HHI on William Hilton Pkwy, turn left on Beach City Rd., which is the same road to the airport terminal. Take another, almost immediate left turn into Library which is obscured by trees. It is before the hospital.

From HXD, exit onto Wm. Hilton Pkwy with a right turn and drive about 1 mile to Beach City Rd. and turn right. Library immediately on left.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.
