

Engine Maintenance and Performance Monitoring

This event will discuss the benefits of working with a mechanic to ensure aircraft engines are properly maintained as well as techniques that can extend engine life. In addition, flight monitoring programs and technology will also be discussed. After the presentation, a Designated Pilot Examiner will be available to provide insight into practical tests as well as answer any test related questions. This meeting will last approximately 45 minutes.

Directions: If flying in, Eagle Aviation is located on the north side of CAE between taxiways E2 and B. If driving, from the John N. Hardee Expressway, turn on to Lexington Drive (by the large pond). At the four way stop go straight on Aviation Way. Eagle Aviation is on the left. Look for large EAGLE sign. The meeting will be held in the large conference room on the first floor.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
