

Human Factors in Accident Causation

This event will provide an overview of the Human Factors Analysis and Classification System (HFACS) based on research by Scott Shappell of the FAA Civil Aeromedical Institute in aircraft accident causation. We will address the various latent failures that lead to the active failures in 70-80% of aircraft accidents.

Directions: Please view map.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
