

Fire Fighter First Responder Training

Fire fighters, law enforcement (LEO) and other first responder organizations are often the first to be contacted when aircraft accidents/incidents occur. They may not be aware of unsafe conditions, i.e., aircraft with ballistic chutes, aircraft of composite construction, etc., or FAA regulations related to these situations. This seminar will provide an overview of unsafe conditions, appropriate regulations, and contact information.

Note: This will be a closed seminar for personnel of the Jasper County Fire-Rescue, Ridgeland, SC. Thus, the FPM selected no distribution email list.

Directions: Please use map link.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
