

Fire Fighter First Responder Training

Fire fighters, law enforcement (LEO) and other first responder organizations are often the first to be contacted when aircraft accidents/incidents occur. They may not be aware of unsafe conditions, i.e., aircraft with ballistic chutes, aircraft of composite construction, etc., or FAA regulations related to these situations. This seminar will provide an overview of unsafe conditions, appropriate regulations, and contact information.

Note: This is a closed seminar for the personnel of the Chester County EMS/Fire Rescue, Chester, SC.

Directions: Please use map link.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
